

**TRUTH** through context, that's the goal in Bible study

1:29:26

Revelation 1-4

# Revelation.

## 7 Churches, 7 Angels

The book of Revelation is the culminating of judgments on the Earth, from the Throne Room of Heaven by the command of the perfect, righteous, just, and merciful Judge.

**God has a purpose for interacting angels with mankind**

Revelation of the mystery hidden to God since the beginning of the ages.

The intimate involvement of angels and mankind throughout human history further defines our understanding of the 7 angels involvement in Revelation ch. 1-3

**What's important is understanding the connection between human and angel.**

Human history including the Church age believers are playing on the field of history in the cosmic stadium, and angels are watching and learning from us, things about the game, love and relation of God according to His perfect eternal plan. They're learning from and through the human experience, that God is a genuine and merciful God, and the **human vulnerability** to His authority are essential for the following of life.

**God involves** those who witness heavenly things throughout human history to witness and learn.

God always thinks in terms of words! As disciples of Christ, we are always writing the map we think.

Although **angelology** has a definition "messengers" for the word angels is primarily a classification of immaterial heavenly beings.

Control is what gives the word its definition.

The word **HEAVEN** is always understood to be a bright shining heavenly host.

Angels names have definition, but that definition does not always apply to the individual, unless it's God who is naming the individual.
